

Trailed chain harrows include, Heavy Grass, Medium Grass, Superflex, Chain & Spike, Concord, Ranger and Paddock. They are designed to be towed behind tractors or other suitable vehicle.

Trailed chain harrows are available in widths from 4'-0" through to 20'-0". They can be supplied complete with drawbar or sections only.

Universal drawbars are manufactured from heavy duty steel tube complete with chain draft. The drawbars are fitted with a steel attachment bar with welded spacers to allow universal attachment points and are designed to pull the harrows at the correct angle so that the ground is completely covered.

## Superflex Harrows

Our Superflex chain harrow section is designed to be compatible with various competitor frames and drawbars. Manufactured from 1/2" diameter high quality carbon steel ensuring that the harrow is extremely strong with a high resistance to wear.

The section is supplied in 3'-3" widths x 7'-6" long.

## Trailed Harrow Drawbar Attachment

Universal Drawbars are manufactured from heavy duty steel tube complete with chain draft. The drawbars are strengthened by a steel attachment bar with welded spacers to allow universal attachment points.

# Trailed Harrows Specification

Working Widths and Weight (Kg) Complete

Type	Depth	Tine Size	3'-3"	4'-0"	5'-0"	6'-0"	8'-0"	10'-0"	12'-0"	14'-0"	16'-0"	20'-0"
