

Our range of harrows are designed to cover all applications from large farms to small holdings and equestrian venues.

Reasons for harrowing include:

- Pasture renovation; breaking up and levelling heavy soil
- Root aeration; for better water infiltration and growth
- Works in fertiliser to both spread and maximise effectiveness
- Surface levelling in equestrian centres, race tracks and running tracks
- Stimulates growth by aerating and tearing out thatch
- Environmentally friendly grass care
- Seed bed preparation
- Excellent for ripping out moss, spreading manure and levelling mole hills

Concord, Ranger & Paddock

The Action

Heavy & Medium Grass, Superflex

Preferred Direction of Pull

Chain & Spike

Hackett Harrows are designed to be universally compatible with our frames and drawbars and can be assembled into most widths using combinations of our standard harrow sections. For example a 16'-0" harrow could be a single 16'-0", a 2 x 8'-0" or a 10'-0" + 6'-0" section.
